The Rippler® Rattleleg® Jig

Rippler® Rattleleg® Jig (7100)

This jig has got it all – A Gamakatsu® pro's choice wide-gap flat-eye hook, heavy nylon weedguard, base coat, finish coat, durable clear vinyl finish, 100% silicone skirt and a patented unsurpassed rattle system attached in the jighead by flexible arms. These rattles will not break under normal fishing conditions, unlike other jigs with rattles that are easily broken on rocks, docks and other hazards. The Rattleleg® Jig is so unique it has been awarded 3 U.S. patents. With the rattle system attached in the head, the skirt is easily replaced and there is plenty of room for your pork or grub trailer with a fish lip. Without question the Rattleleg® Jig makes the loudest, most enticing sound of any jig. The jig rattles with the slightest movement. You have nothing to lose except your lure when the big one breaks your line.

Rippler® Rattleleg® Jig (7100)

Patent #s 5,524,378 • 5,524,379 • DES. 371,821

Pro Model Rattleleg® Jig (7200)

Streamlined model of the Rippler® Rattleleg® Jig. Comes equipped with one rattle on flexible arm. Rattle duplicates exact path of head and hook as it moves through the water. This allows for precise placement of jig into small areas. Designed for the pro and the pro in you.

RATTLELEG® JIG

Rattleleg® Spinnerbaits

Rattleleg® Spinnerbait

Has a durable clear vinyl finish, hand painted eyes, fish coat, base coat, and primer coat. 100% silicone skirt and a patented unsurpassed rattle system is attached in the jighead by flexible arms. These rattles will not break under normal fishing conditions, unlike other spinnerbaits with rattles that are easily broken on rocks, docks and other hazards. The Rattleleg® Spinnerbait is protected by 2 U.S. patents. With the rattle system attached in the head, the skirt is easily replaced and there is plenty of room for your pork or grub trailer with a fish lip. Without question the Rattleleg® Spinnerbait makes the loudest, most enticing sound of any spinnerbait. The spinnerbait rattles with the slightest movement. Blades are plated with gold, silver or black nickel (with black head only).

The Rattleleg® System

Rippler® Rattleleg® Jigs and Rippler® Rattleleg® Spinnerbaits have a patented rattle system protected by two United States Utility Patents. (#5,524,378 and #5,524,379). The Rattleleg® Jig is further protected by one United States Design Patent (#DES. 371,821). These patents have been successfully defended in the United States Federal Court. The Rattleleg® system surpasses all other rattles in sound, durability, function and performance. Tests with hydrophones prove that no other rattle system comes even close to the sensitivity and sound of the Rattleleg® system. The rattles are connected to the lure by a strong but flexible filament that takes the shock of encounter with rocks, docks and stumps without breaking and provides for the rattle to "sound-off" at the slightest movement. Add to that the ease of changing skirts and having plenty of room for a trailer of any type without interfering with the "bite" of the Gamakatsu® hook makes this the rattling lure of your dreams.

Lure Finishes

All Rippler® lures are painted with a minimum of **three coats**. A primer coat, a base coat and a clear finish coat applied by air-brush ensure that you will not have to break paint out of the eye of the hook. This attention to detail helps keep the paint from "popping" off as much. There are no paint edges as on commonly dipped lures, so your fishing line will not receive undue wearing at hook eye. Each of the painted lures has a color coordinated 100% silicone skirt to compliment its appearance.

Rippler® Skirts

All skirts sold by Rippler® Lures are 100% silicone rubber that will not "bleed" or melt in your tackle box. You may choose from any of our 15 skirt colors (see page 8 for details).

Build a Rippler®

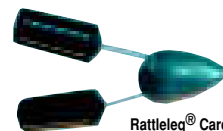

You can special order any of our lures with any of our 15 skirt colors at no extra cost. Or, since our skirts are so easy to change, buy several different skirts to build your own custom lure.

Rattleleg® Weights

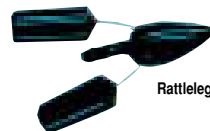

The Texas style is painted black. It has a neck that allows a skirt to be attached to dress up your worm.

The Carolina style is unpainted

Both of our Rattleleg® Weights utilize the patented Rattleleg® Rattle System. And, as always, both are built to work and last.

Rattleleg® Carolina Weight

Rattleleg® Texas Weight

Rippler Jacket

100% nylon, Kasha lined, satin finished jacket. Has rib collar, cuffs and band, slash pockets and raglan sleeves. Water repellent. Personalized with your name embroidered on right chest. S-3XL.
